WINTER BASICS

for Curvy Queens

1

Turtleneck

This basic is perfect for curvy queens because it elongates your neck and torso, making it a great option for any body type. Turtlenecks also have a unique way of framing your face that few other articles of clothing have.

2

Trench

If you are looking for that classic piece that will never go out of style this is it. There is so much versatility to the piece with wearing it open closed or tied up while also keeping you warm. It will always adding shape and dimension to your style.

3

Boots

Don't be afraid of a classic boot. Yes, for us curvy women, having wider boots is essential. However, that doesn't mean you shouldn't rock these stunning items. It is important to find a boot height and width that works for you. My favorite height is about an inch below the knee. This basic elevates any outfit.

4

Waist Belt/Corset Belt

There is always the issue of feeling shapeless in bulky winter clothing. With this addition of this basic to your closet you will always look snatched. It will provide you shape and the flexibility to wear with items like a long sleeve shirt, sweater or blazer.
